SUMMARY

- React Developer with 1+ year experience building scalable healthcare applications using React.js, Next.js, and Tailwind CSS. Skilled in Redux Toolkit, REST API integration, and performance optimization, delivering fast and user-friendly web applications.

EXPERIENCE

- **MyCLNQ Health India Pvt Ltd** Dec 2024 – Present
Software Engineer – Frontend
 - **Frontend Development:** Developed and maintained production-grade healthcare applications using React.js and Next.js, used by hospitals, doctors, and administrators.
 - **Performance Optimization:** Improved page load performance by **25–35%** by optimizing re-renders, lazy loading, and efficient API handling.
 - **Reusable Architecture:** Built reusable component-based architecture, reducing development time by **30%** and improving scalability.
 - **State Management:** Implemented scalable state management using **Redux Toolkit** and Context API to handle complex workflows like appointment booking and profile management.
 - **API Integration:** Integrated **10+ REST APIs** for authentication, role-based access, appointment scheduling, and user workflows.
 - **Admin Dashboards:** Developed admin portals supporting **multiple user roles (Admin/Doctor/User)** for hospital and profile management workflows.
 - **Responsive UI:** Ensured mobile responsiveness and cross-browser compatibility using Tailwind CSS.
 - **Agile Collaboration:** Collaborated in Agile Scrum environment, contributing to sprint planning, development, and production releases using Jira and Bitbucket.

PROJECTS

- **FV-CMD & FV-Provider — MyCLNQ Health:**
 - Developed scalable admin and provider dashboards using **React.js** and **Redux Toolkit** for hospital and doctor workflows.
 - Implemented appointment scheduling, doctor onboarding, and profile management with **role-based access control**.
 - Optimized state management and component structure, improving UI responsiveness and reducing bugs.
 - Integrated multiple REST APIs for handling real-time data updates and secure user operations.
- **AI Resume Analyzer — React + OpenAI API:**
 - Developed AI-powered web application using **React.js** and **OpenAI API** to analyze resumes against job descriptions.
 - Implemented resume upload and parsing with keyword extraction and match scoring system.
 - Generated actionable suggestions to improve resume content for better ATS compatibility.
 - Designed clean and responsive UI for seamless user interaction and real-time feedback.
- **PWD Tuljapur — Official Website:**
 - Developed and deployed official government website using **React.js** and **Tailwind CSS**.
 - Built mobile-first responsive UI ensuring accessibility across multiple devices.
 - Improved SEO, performance, and loading speed for better user reach.
 - Collaborated with stakeholders to manage content updates and maintain long-term scalability.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Tailwind CSS, Redux Toolkit
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Languages:** JavaScript (ES6+), HTML5, CSS3, SQL
- **Tools:** Git, Postman, Jira, Bitbucket, VS Code

EDUCATION

- **MGM University** 2021 – 2025
B.Tech Information Technology - GPA 7.88/10 Aurangabad
- **S.B.E.S College of Science** 2020 – 2021
12th HSC - 93.67% Aurangabad
- **Swami Vivekanand Academy** 2018 – 2019
10th SSC - 94.20% Aurangabad
